2022 Maverick

Meet the All-New Maverick

Meet the newest member of the Built Ford Tough truck family — the all-new 2022 Maverick. Customers can expect capability and durability, plus Maverick is the first and only standard full hybrid pickup in America. With a targeted EPA-estimated range of 500 miles on a single tank of gas⁽¹⁾ and a starting MSRP of \$19,995⁽²⁾ — the lowest of any hybrid in America — Maverick proudly expands the Built Ford Tough legacy.

Maverick is designed to offer impressive efficiency with a targeted EPA-estimated fuel economy rating of 40 mpg city⁽³⁾ and a clever FLEXBED pickup box packed with cargo-carrying solutions for both the do-it-yourselfer and the weekend warrior — all in a SuperCrew package that comfortably seats 5 and is equally maneuverable in the city and in the wild. These attributes will attract a new group of customers to Ford, some who never knew they needed a truck.

Introducing the all-new, boldly efficient and versatile 2022 Maverick pickup. Available Fall 2021.

KEY MAVERICK FEATURES

Models and Configuration

Available in XL, XLT and Lariat series

SuperCrew only with 4 full-size doors and 4.5-ft. pickup box

Performance and Capability

The first standard full hybrid powertrain in a truck

- 2.5L Atkinson-cycle I-4 engine paired with a 94kW electric motor and combined 191 horsepower
- Electronically controlled Continuously Variable Transmission (eCVT)
- Front-wheel drive (FWD) only
- Targeted 500 mile range⁽¹⁾
- Targeted EPA-estimated fuel economy rating of 37 mpg combined⁽³⁾

2.0L EcoBoost I-4 gas engine available

- 8-speed automatic transmission
- 250 horsepower and 277 lb.-ft. of torque⁽⁴⁾
- FWD or available all-wheel drive (AWD)

Electric power-assisted steering (EPAS)

Selectable Drive Modes: Normal, Eco, Sport, Slippery and Tow/Haul

- FX4 Off-Road Package includes Mud/Ruts and Sand modes (replacing Eco and Sport)

Maximum payload rating of 1,564 lbs. with 2.5L Hybrid I-4⁽⁵⁾

Exterior

Customizable truck with available features and accessories to fit multiple lifestyles

Pickup box with creative storage solutions

- 4.5'/6' of bed length with tailgate up/down
- 6 standard cargo bed tie-down hooks and 4 available tie-downs
- 110-volt/400-watt AC power outlet available
- FLEXBED system with side storage bins, provisions for bed divider boards and two-tiered loading
- LED cargo light
- Multi-position tailgate with bottle openers
- Two 12-volt, 20-amp pre-wired sources for DIY electrical solutions

LED headlamps with LED signature lighting on Lariat

Wiper-activated headlamps

Interior

4.2" productivity screen in instrument cluster

B&O® Sound System by Bang & Olufsen® with 8 speakers available on Lariat

FITS (Ford Integrated Tether System) slots behind the console and in the under-seat storage bin allow owners to add accessories like a cupholder or tablet holder

Front-door storage bins with water bottle storage slots and designed to fit a small laptop or tablet

Connectivity Technology

8" center-stack touchscreen with Apple CarPlay® and Android Auto™ compatibility

FordPass Connect with 4G LTE Wi-Fi hotspot

SYNC 3 available on Lariat

Ford Co-Pilot360 Technology

Adaptive Cruise Control with Stop-and-Go and Lane Centering available

Evasive Steering Assist available

Auto High Beams

BLIS (Blind Spot Information System) with Cross-Traffic Alert available

Hill start assist

Intersection Assist available

Lane-Keeping System with Lane-Keeping Aid, Lane-Keeping Alert and Driver Alert System available

Pre-Collision Assist with Automatic Emergency Braking (AEB), Pedestrian Detection and Forward Collision Warning

Post-Collision Braking

Rear Parking Sensors available

Rear View Camera

Packages

4K Tow Package (53Q)

First Edition Package (59D) on Lariat only

Ford Co-Pilot360 (86B)

FX4 Off-Road Package (17S)

Towing capability⁽⁶⁾

- 2,000-lb. rating standard
- 4,000-lb. max. trailer tow capacity with 2.0L EcoBoost engine and available 4K Tow Package

Unibody construction

NOTE: Horsepower, torque, payload and towing are independent attributes and may not be achieved simultaneously.

Heated seats and heated, leather-wrapped steering wheel available

Seating in a choice of cloth or available ActiveX™ Seating Material

- Ample room for 5 adults
- Front bucket seats
- Rear bench with flip-up rear-seat cushion and under-seat storage

Stylish interior design and color combinations specific to each trim level

Two front USB ports and dual rear USB ports (Lariat)

Available wireless charging pad⁽⁷⁾

Lariat Luxury Package (54P)

XLT Luxury Package (54L)

KEY MESSAGES

Hybrid for All

The all-new Maverick is the first and only standard full hybrid pickup in America. Beyond efficiency, Maverick provides the functionality customers expect in a Built Ford Tough pickup with a 1,564-lb. maximum payload rating.⁽⁵⁾ And, with the available 2.0L EcoBoost I-4 engine, Maverick has a 4,000-lb. max. trailer tow rating,⁽⁴⁾ which opens a world of possibilities.

Go to Performance and Capability >>

Purposeful Design

As an all-new compact truck, the Maverick design fits an active customer's lifestyle by offering flexibility and functionality with the FLEXBED cargo box and multi-position tailgate. The bed features slots and provisions to add dividers or a shelf for two-tier loading when customers need a creative productivity solution. And with box-top and rocker moldings all around, Maverick is built for DIY projects — or recreational activities.

Go to Exterior >>

Versatile Cab Seats Five

Maverick starts with a roomy SuperCrew interior that accommodates five people and then adds creative storage solutions, such as rear under-seat bins concealed by the flip-up seat cushion. Every Maverick features FITS (Ford Integrated Tether System) slots, which provides notches in the rear console area and inside the bins to insert accessories such as cupholders or a cord organizer.

Go to Interior >>

Tech for on the Go

Smart technology is close at hand for the active customer in the all-new Maverick. Customers are connected by an 8" color center-stack touchscreen with Apple CarPlay® and Android Auto™ compatibility and available SYNC 3. Ford Co-Pilot360 Technology includes Pre-Collision Assist with Automatic Emergency Braking (AEB) and Pedestrian Detection, available BLIS with Cross-Traffic Alert, available Lane-Keeping System and available Adaptive Cruise Control with Stop-and-Go and Lane Centering plus Evasive Steering Assist.

[Go to Technology >>](#)

Be Productive, Be Safe

Safe travels in the all-new Maverick begin with AdvanceTrac with RSC (Roll Stability Control) and the standard Tire Pressure Monitoring System (TPMS) that alerts the driver when any of the four tires loses air pressure. Maverick provides security with the standard SecuriLock Passive Anti-Theft System with engine immobilizer and perimeter alarm in the XLT model.

[Go to Safety/Security >>](#)

First Edition Package

For the ultimate Maverick experience, the First Edition Package available on the Lariat adds style, convenience and functionality. The style comes from the black-painted roof and choice of 18" black-painted wheels with the hybrid powertrain, or 17" black-painted wheels and all-terrain tires for 2.0L models with AWD.

Conveniences include the soft-top tonneau cover for the bed and the power tilt-or-slide moonroof. Other features, added with the Lariat Luxury Package, include a wireless charging pad,⁽⁶⁾ B&O Sound System by Bang & Olufsen with eight speakers, along with heated front seats and heated steering wheel.

First Edition enhances functionality with trailer hitch receiver that includes a 4-pin harness, LED box lighting, spray-in bedliner, bed tie-down locking rails and 110-volt/400-watt AC power outlets in the cab and in the bed.

THE COMPETITION

The competitive comparisons take a deeper dive to show where Maverick has the advantage.

Key competitors include:

- Hyundai Santa Cruz

Stay tuned to eSourceBook for updates.

TARGET CUSTOMER

A New Group of Truck Customers

Potential Maverick customers may not think of themselves as “truck people.” But when they see how well the all-new 2022 Maverick fits their lifestyles in a capable and affordable way, they will likely consider this all-new vehicle because of its versatility and practicality.

These customers approach life with a can-do spirit and an efficient, on-the-go lifestyle. They embody what we call the Maverick mentality — tackling day-to-day projects while savoring weekend pastimes. They are unafraid to take on a do-it-yourself project or use their vehicle as a “maker space.”

Generally, these customers are younger than the average pickup owner, more diverse and more connected on a daily basis to friends, family and their vehicles.

They may not be familiar with Ford products yet, but they appreciate a practical, affordable, efficient vehicle that allows them to work and play on their own terms.

PRIDE POINTS

- First and only standard full hybrid pickup in America
- Lowest starting MSRP of any hybrid in America (\$19,995)⁽²⁾
- Maverick with the hybrid powertrain has a targeted EPA-estimated range of 500 miles on a single tank of gas⁽¹⁾
- Maverick with the hybrid powertrain is the most fuel-efficient pickup on the market with a targeted EPA-estimated rating of 37 combined mpg⁽³⁾

(1) Targeted 40 city mpg/33 highway mpg/37 combined mpg. Actual mileage will vary. Range calculation based on 13.8-gallon tank and a targeted EPA-estimated 37 combined mpg. Actual range will vary.

(2) MSRP for base vehicle. Excludes destination/delivery fee plus government fees and taxes, any finance charges, any dealer processing charge, any electronic filing charge, and any emission testing charge. Optional equipment not included.

(3) 2.5L Hybrid powertrain. Targeted EPA-estimated mpg ratings of 40 city/33 highway/37 combined. Actual mileage will vary. Final EPA-estimated ratings available later in the 2021 calendar year.

- (4) Horsepower and torque ratings based on premium fuel per SAE J1349® standard. Your results may vary.
- (5) Maximum payload varies and is based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. Payload and towing are independent attributes, and may not be achieved simultaneously.
- (6) Maximum towing varies based on cargo, accessories or number of passengers.
- (7) Available Qi wireless charging may not be compatible with all mobile phones.

2022 Maverick

Performance and Capability

The all-new Maverick is built on possibilities. Whether customers are planning a weekend project or weekend getaway, Maverick provides strength and efficiency with a standard 2.5L Atkinson-cycle I-4 Hybrid to make it happen. If customers want to add power, the available 2.0L EcoBoost I-4 engine delivers 250 horsepower and a maximum trailer towing capacity of 4,000 lbs.⁽¹⁾ with the 4K Tow Package. And since Maverick comes from Built Ford Tough DNA, the max. payload rating of 1,564 lbs.⁽²⁾ should not come as a surprise.

POWERTRAINS

The **2.5L Atkinson-cycle I-4 hybrid powertrain** generates 191 horsepower with the gas engine and electric motor working together. The Maverick hybrid has a targeted EPA-estimated range of 500 miles⁽³⁾ and a targeted EPA-estimated fuel economy rating of 37 mpg combined.⁽⁴⁾ The gas engine works with the electric motor to operate the vehicle at low speeds and supply a power boost when needed at higher speeds. The gas engine alone makes 162 horsepower and 155 lb.-ft. of torque.⁽⁵⁾

The electronically controlled continuously variable PowerSplit transmission (eCVT) was engineered exclusively for Ford hybrid systems. The battery in the hybrid system recharges through engine use and regenerative braking.

The **2.0L EcoBoost I-4 engine** generates 250 horsepower and 277 lb.-ft. of torque.⁽⁶⁾ It's paired with an 8-speed automatic transmission and offers five Selectable Drive Modes: Normal, Eco, Sport, Slippery and Tow/Haul. This powertrain can be ordered with standard front-wheel drive or available all-wheel drive.

TOWING AND PAYLOAD CAPABILITIES

Equipped with the 2.0L EcoBoost engine and the 4K Tow Package, Maverick has a maximum trailer tow rating of 4,000 lbs.⁽¹⁾ With the standard 2.5L hybrid engine, the truck can tow up to 2,000 lbs.

Customers can load Maverick up to its maximum payload rating⁽²⁾ of 1,564 lbs. with the 2.5L Hybrid, which is enough capacity to haul 39 bags of mulch at 40 lbs. each or a small recreational ATV.

ALL-WHEEL DRIVE (AWD) SYSTEM

The **AWD System** determines the optimal amount of front and rear torque to send to the wheels, depending on driving conditions, to prevent or reduce wheelspin. The driver doesn't need to activate the system — it automatically engages on wet or dry surfaces based on wheel speeds, throttle position and steering wheel angle to determine the truck's condition and driver's intent. When AWD is combined with traction control or the AdvanceTrac electronic stability control system, a high level of torque can be sent to the wheel(s) with the best traction.

FX4 OFF-ROAD PACKAGE

Equipped with the AWD system, all-terrain tires, Hill Descent Control and skid plates to protect components, Maverick with the available FX4 Off-Road Package is ready to take owners beyond where the road ends.

FX4 also provides a trailer hitch receiver along with exposed front tow hooks to help owners get serious about their fun. The package features 17" black-painted aluminum wheels, plus "FX4 Off-Road" box-side decals.

- (1) Maximum towing varies based on cargo, accessories or numbers of passengers. Horsepower, torque, payload and towing are independent attributes and may not be achieved simultaneously.
- (2) Maximum payload capability is for properly equipped base vehicles with required equipment and a 150-lb. driver, and varies based on cargo, vehicle configuration, accessories and number of passengers. See label on doorjamb for carrying capacity of a specific vehicle. Payload and towing are independent attributes and may not be achieved simultaneously.
- (3) Range calculation based on 13.8-gallon tank and a targeted EPA-estimated rating of 37 mpg combined. Actual range will vary.
- (4) Targeted EPA-estimated mpg ratings of 40 city/33 highway/37 combined. Actual mileage will vary. Final EPA-estimated ratings available later in the 2021 calendar year.
- (5) Horsepower and torque are independent attributes and may not be achieved simultaneously.
- (6) Horsepower and torque ratings based on premium fuel per SAE J1349® standard. Your results may vary. Horsepower and torque are independent attributes and may not be achieved simultaneously.

NOTE: Horsepower, torque, payload, towing and EPA-estimated fuel economy ratings are independent attributes, and may not be achieved simultaneously.

NOTE: For availability of product features, please see Availability by Model and/or the [Dealer Ordering Guide](#).

2022 Maverick

Exterior

The all-new Maverick design fits an active customer's lifestyle with its four-door SuperCrew cab and versatile, practical FLEXBED pickup bed system. Every Maverick model has a 4.5' cargo box that extends to 6' with the tailgate fully down. Popular bed accessories, such as the bed extender and cargo bed net, are available at the time of purchase. The newest member of the Ford family of pickups shows its Built Ford Proud pickup DNA from the power dome hood to the smooth beltline tying its profile together to the multi-position tailgate.

HIGHLIGHTS

Up Front

Maverick shows its family resemblance to the other Ford trucks with a horizontal front-end design that emphasizes width and a confident stance. Each trim level has an individual appearance with XLT and Lariat featuring gray or silver bars across the grille. Two exposed front tow hooks are included in the available FX4 Off-Road Package.

Along the Side

Maverick features a lower profile than the Ranger and F-150 stable mates, which means items in the pickup bed stay within easy reach from the sides. The C-clamp style fender badge borrows a styling cue from F-150, and look closely to find a subtle contour line that mimics the F-150 drop-down window design. Plus, Maverick features rocker moldings and box-top moldings for toughness and durability. Each model also has a distinct 17" or 18" wheel with exclusive designs for the available FX4 Off-Road and First Edition Packages.

At the Rear

The Maverick logo stamped into the tailgate shows off the newest member of the truck family's Built Ford Tough pride. The bold wrap-around taillamp design and tailgate molding are further reminders that this truck is designed for rugged use. The Lariat model features an LED cargo bed light in the CHMSL.

FLEXBED SYSTEM

Properly secure cargo.

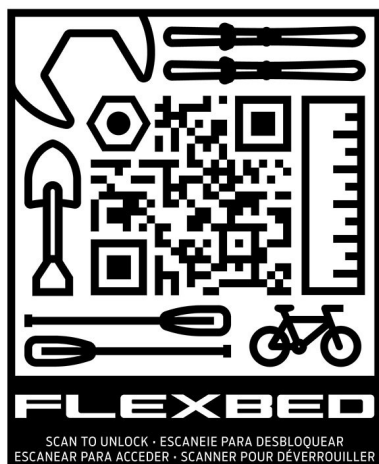

Maverick designers made the most of pickup bed functionality with the **FLEXBED** system, which helps owners organize, secure or conceal their cargo and supplies. FLEXBED includes creative storage solutions, such as the closable storage cubby in the side wall (XLT and Lariat). The bed features stamped slots and provisions to allow customers to use 2x4 or 2x6 boards as dividers to create sections or insert a panel as a shelf for two-tier loading. A divider board can be inserted on its edge — or flat to serve as a support beam for a shelf. With six standard cargo tie-down rings and four adjustable D-link connectors available, Maverick owners can transport gear to their destination with confidence.

MULTI-POSITION TAILGATE

The **tailgate** of the Maverick can be closed, fully open or partially open at a mid-height tailgate position, which owners may use to carry a 4x8 sheet of plywood.⁽¹⁾ The tailgate also features tie-down cleats at the sides that include bottle openers.

QR CODES OFFER DIY IDEAS

Show customers that Maverick offers QR code decals on the cubby cover and on the opposite wall panel in the pickup box. When customers point their smartphone at either QR code, it will reveal a Ford.com page that provides insights into FLEXBED capabilities and DIY tips. They'll also find a QR decal inside, in the under-seat storage area, that links to more insights on Maverick resources.

Data rates may apply.

LUXURY PACKAGE ADDITIONS

When Maverick customers order the XLT Luxury Package or Lariat Luxury Package, they will add the following exterior highlights:

- 110-volt/400-watt power outlet in the bed with a cover
- Bed tie-down locking rails with two locking brackets
- Heated rearview mirrors
- LED box lighting
- Spray-in bedliner
- Trailer hitch with 4-pin connector
- Windshield wiper de-icer

See Availability by Model >
[Equipment Groups & Packages](#) for the full lists.

(1) Cargo and load capacity limited by weight and weight distribution.

NOTE: For availability of product features, please see Availability by Model and/or the [Dealer Ordering Guide](#).

2022 Maverick

Interior

With its SuperCrew cab and creative storage solutions, the Maverick interior provides a practical environment for transporting passengers, gear or both for active, on-the-go lifestyles. The seating comfortably accommodates five people with rear leg room and knee clearances that are better than some midsize trucks on the market. The flip-up rear seat cushion reveals two under-seat storage bins (with a center divider) for keeping goods out of sight, and the front-door side pockets are designed to fit a tablet or small laptop, plus a 1-liter water bottle. The interior features a designer's touch with stylish color combinations and ActiveX Seating Material in the Lariat model.

TAILORED FITS

FITS (Ford Integrated Tether System) slots are designed to hold accessories such as extra cupholders, double hooks or a cord organizer. FITS notches are located on the back of the floor console and in the under-seat storage bins. Ford will continue to explore new applications for the FITS slots — stay tuned.

LARIAT BENEFITS

The Lariat trim level features several interior upgrades, starting with ActiveX Seating Material with 8-way power driver's seat and ambient lighting. Lariat also includes:

- 6.5" productivity screen in the instrument cluster
- Driver seat back map pockets
- Dual USB ports for rear passengers
- Dual-zone electronic automatic temperature control
- Intelligent Access with push-button start
- Leather-wrapped steering wheel
- Power-sliding rear window with defroster

LUXURY PACKAGES

The available **XLT Luxury Package** provides a serious upgrade to the interior, including the following features: heated front seats, heated leather-wrapped steering wheel, 8-way power driver seat and 6-way manual passenger seat

The **Lariat Luxury Package** provides maximum interior content, such as SYNC 3 with 8" center-stack touchscreen, B&O® Sound System by Bang & Olufsen® with 8 speakers, wireless charging pad,⁽¹⁾ heated front seats and heated steering wheel.

See Availability by Model >
Equipment Groups & Packages for the full lists.

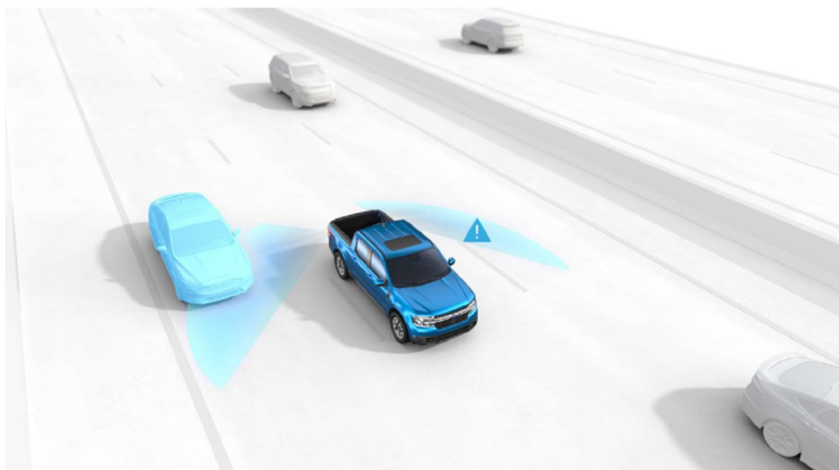

(1) Available Qi wireless charging may not be compatible with all phones.

NOTE: For availability of product features, please see Availability by Model and/or the [Dealer Ordering Guide](#).

2022 Maverick

Technology

Smart technology is at the ready in Maverick, including a standard 8" center-stack touchscreen with Apple CarPlay and Android Auto compatibility and SYNC 3 included in the available Lariat Luxury Package. Standard Pre-Collision Assist with Automatic Emergency Braking (AEB) and Pedestrian Detection bring peace of mind, while available Ford Co-Pilot360 Technology includes BLIS (Blind Spot Information System) with Cross-Traffic Alert and the Lane-Keeping System. Adding the available Lariat Luxury Package equips Maverick with Adaptive Cruise Control with Stop-and-Go and Lane Centering, as well as Rear Parking Sensors.

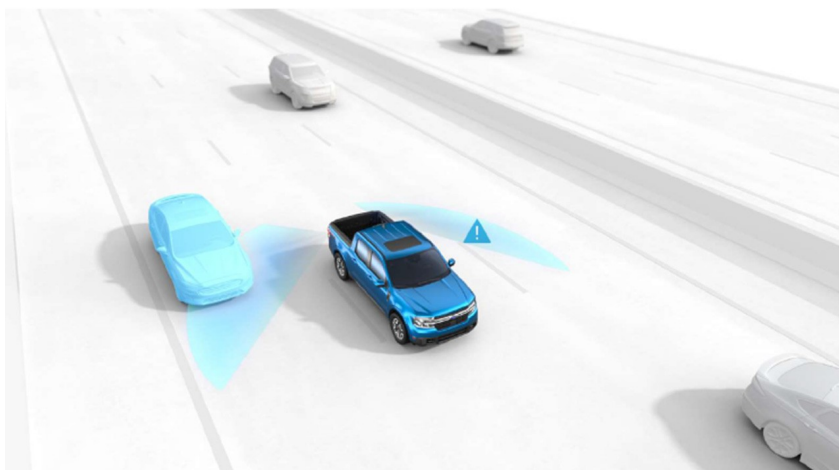

UNDERSTANDING FORD TECHNOLOGY

To help understand, and better present, Ford technology, this section is divided into two primary categories.

Ford Co-Pilot360

Technology — Driver-assist features designed to help owners increase their confidence behind the wheel.

Connectivity Technology — In-vehicle features that elevate the ownership experience, including available SYNC 3, FordPass Connect and Apple CarPlay® or Android Auto™ compatibility.

FORD CO-PILOT360 TECHNOLOGY

Ford Co-Pilot360 is the suite of driver-assist features designed to help keep customers aware of their surroundings. For Maverick, features include:

- Auto High Beams
- BLIS (Blind Spot Information System) with Cross-Traffic Alert
- Lane-Keeping System (includes Lane-Keeping Aid, Lane-Keeping Alert and Driver Alert System)
- Post-Collision Braking
- Pre-Collision Assist with Automatic Emergency Braking (AEB), Pedestrian Detection and Forward Collision Warning with Dynamic Brake Support
- Rear View Camera

LARIAT LUXURY PACKAGE ADDITIONS

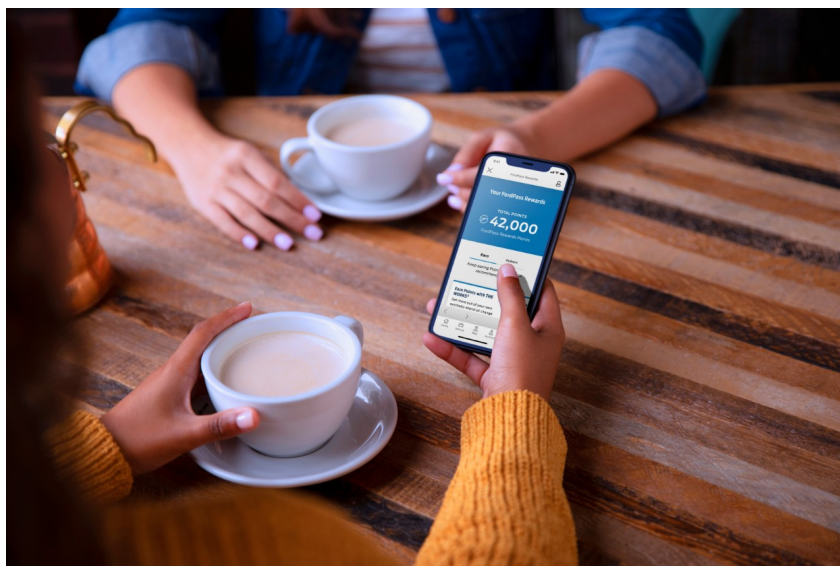

Customers who add the available Lariat Luxury Package will also get the following technology features:

- Adaptive Cruise Control with Stop-and-Go and Lane Centering
- Evasive Steering Assist
- Rear Parking Sensors
- Remote Start System
- SYNC 3

NOTE: Requires Ford Co-Pilot360.

FORDPASS CONNECT

Being equipped with FordPass Connect⁽¹⁾ opens a variety of possibilities. This embedded feature provides subscribers with a 4G LTE Wi-Fi hotspot that allows them to connect up to 10 mobile devices (with a subscription). FordPass Connect also allows customers to remote start, lock or unlock the vehicle, locate the vehicle and check statuses, such as fuel level.

(1) FordPass Connect, the FordPass App, and complimentary Connected Service are required for remote features (see FordPass terms for details). Connected Service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Connected Service excludes Wi-Fi hotspot.

Apple CarPlay is a trademark of Apple Inc., registered in the U.S. and other countries. Android Auto is a trademark of Google Inc.

NOTE: Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. It does not replace safe driving.

NOTE: For availability of product features, please see Availability by Model and/or the [Dealer Ordering Guide](#).

2022 Maverick

Safety and Security

Much like toughness and capability, the safety and security systems in the Ford family of trucks are familiar to the brand. Maverick meets these safe-driving imperatives with standard AdvanceTrac electronic stability control, traction control, Personal Safety System and the Belt-Minder front safety belt monitoring system. Peace-of-mind features include the SecuriLock Passive Anti-Theft Engine Immobilizer System on all models, plus the perimeter alarm system and SecuriCode keyless entry keypad on XLT and Lariat models.

DEFINING SAFETY

To help understand and better present the suite of safety features found on Maverick, this section is divided into four categories.

- Accident Avoidance
- Child Safety
- Occupant Protection
- Personal Safety/Security

TIRE PRESSURE MONITORING SYSTEM

The **Individual Tire Pressure Monitoring System** alerts the driver when a tire on the truck is underinflated. Drivers will see a warning light and the pressure reading for each of the tires on the instrument cluster display. The recommended tire pressure level can be found on a label on the B pillar section of the driver's side door.

SECURILOCK

The **SecuriLock Passive Anti-Theft Engine Immobilizer System** is designed to prevent the vehicle from being started unless the coded key specific to the vehicle is used. The anti-theft engine immobilizer helps prevent the truck from being driven away by an unauthorized user. Remind customers that a large metallic object or another electronic device attached to their key ring may cause starting problems.

PERSONAL SAFETY SYSTEM

This **Personal Safety System** is designed to analyze occupant conditions in the front seats to help reduce the risk of an airbag-related injury. The system can adjust airbag deployment based on whether the passenger seat is occupied, how far forward or back the seats are, whether the safety belts are being used and severity of the crash.

NOTE: For availability of product features, please see Availability by Model and/or the [Dealer Ordering Guide](#).
