Zip-Ties

Isopropyl Alcohol

#### CONTENT LIST:

DESCRIPTION	QTY
LED Light Bar	1
Maverick Quick Connect Harness	1
Black Plastic Bracket	4
3M Tape Strips	4
Promotor Packet	1

## INSTALLATION INSTRUCTIONS:

- 1 The factory wire harnesses are located on the frame rail, below each tail lamp.

Step 1: Harness Location

Step 2: Unplug Factory Harness

- 2 Depress tab and unplug factory harness. **Note: halogen tail lamp vehicle pictured here. LED tail lamp harness is in the same location but connector is different.**
- 3 Plug the Blade Harness into factory wiring. Ensure plugs audibly “click” into place.
- 4 Disconnect rear view camera plug(s) on driver’s side frame rail. Remove tail gate. Clean mounting surface w/ isopropyl alcohol.
- 5 Mount the Blade as high as possible on the rear bumper cover. This is to ensure that the tail gate will not hit the Blade when open. Blade will be flush with top of the plastic lip of bumper (shown in next step). Route wires behind bumper and reinstall tailgate.

Step 4: Disconnect camera plug

Step 5: Mount Blade

**6** Slowly open the tailgate and make sure that it does not hit the Blade at any point.

Step 6: Verify Blade Mounting Position

Step 6: Verify Blade Mounting Position

**7** Route the wires behind the bumper. Connect 4 pin connector and Weather Pack connectors to Blade Harness. **Note: Putco recommends using di-electric grease on 4 pin connector to help keep connection water resistant.** Zip-tie wires and Blade driver box in safe location, away from debris, hot exhaust pipes, or pinch points.

**8** Route the wires behind the bumper. Connect 4 pin connector and Weather Pack connectors to Blade Harness. **Note: Putco recommends using di-electric grease on 4 pin connector to help keep connection water resistant.** Zip-tie wires and Blade driver box in safe location, away from debris, hot exhaust pipes, or pinch points.

Step 8: Test the Blade

**Your Putco Blade Led Lightbar is now installed!  
Enjoy your new Putco product!**
